

**Fireplace  
Heatsaver**  
(patent pending)

# Cut your heating bills

## with The Fireplace Heatsaver and stay warm

The Fireplace Heatsaver is a transparent acrylic shield that sits in front of your fire when it is not in use, preventing heat from escaping up your chimney and also stopping draughts.

### The Fireplace Heatsaver will benefit you by:

- Preventing heat loss up your chimney,
- Paying for itself by cutting your heating bills,
- Retaining warmth in your home, reducing draughts,
- Preventing draughts from your chimney,
- Maintaining the focal feature of your fireplace,
- Simple to fit, in seconds, without tools,
- Easy to remove, without mess, if you want to use your fire
- Improves the energy efficiency of your home
- Reduces your carbon footprint
- Tested by BSRIA

The Fireplace Heatsaver, simply the quickest, easiest, cleanest way of preventing heat loss up your chimney
